

Saturna Net Co-operative

Rate Structure:

October 29, 2012

High-speed service is \$60 per month.

Commercial high-speed service is \$100 per month.

If they wish, people living on island part-time can pay a base rate of \$30 per month if they are here up to 15 days per month. If they are here more than 15 days in a month, the monthly rate of \$60 will apply.

If a permanent resident is away from home for 3 months or less, the regular fee will apply. (Many, if not most, household services are not suspended while a user goes on vacation and we feel the same principal applies to our broadband service.)

If a permanent resident wishes to suspend their regular payment when they are away for longer than 3 consecutive months, the \$12 per month base rate must still be paid to keep their account active.

Co-op members who are leaving their home empty for a year or longer may suspend service altogether and begin to reuse the service upon their return by notifying the co-op president or treasurer and paying their monthly fee.
